September 21, 2020

Parents, Guardians and Ringwood Community,

I would like to update you on COVID-19 and Ringwood Schools. This weekend we were notified of another student that has tested positive for COVID-19 in the elementary. Our administration and staff are in constant contact with the Major County Health Department on processes and procedures to determining contact tracing. At this time, all students involved are in quarantine for 14 days.

This is our second student-positive case of COVID-19. One student in the high school and one student in the elementary. According to our Reopening Framework we are still in Level 1. We are asking all students and parents that have been notified that their child is in quarantine to please follow the CDC Guidelines on quarantining listed below.

Quarantine is used to keep someone who might have been exposed to COVID-19 away from others. Quarantine helps prevent spread of disease that can occur before a person knows they are sick or if they are infected with the virus without feeling symptoms. People in quarantine should stay home, separate themselves from others, monitor their health, and follow directions from their state or local health department.

Excellence in Education,

Wade Detrick
Superintendent
